SERVICE

YOUNG AND DYNAMIC

Bronswerk Heat Transfer Services B.V. is a young and dynamic organization based on long and strong foundations, completely dedicated to industrial maintenance and services.

We're a worldwide key player in providing service- and maintenance solutions to any needs clients may have in regard to heat exchange equipment and manufacturers.

Bronswerk's philosophy is to realize this through as least downtime as possible, greatest reliability of these products, against as low as possible cost and highest possible efficiency.

“Great maintenance shouldn't cost money but produce it”

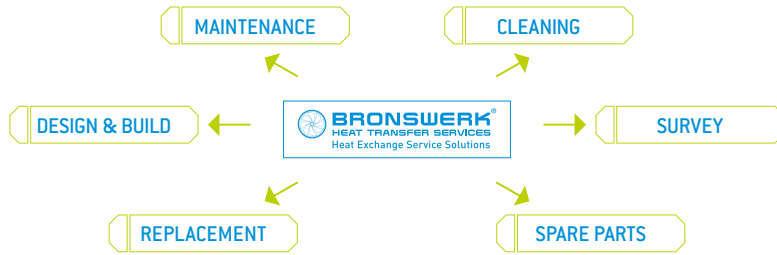

Bronswerk Heat Transfer Services is based in Vierpolders, in the heart of Rotterdam's port district.
